

## **NYC Health + Hospitals/Metropolitan**

NYC Health + Hospitals/Metropolitan was founded in 1875, the same year it began its affiliation with New York Medical College. This relationship is the oldest medical college-hospital affiliation in the United States. Together, Metropolitan and NYMC have trained generations of dedicated doctors and medical providers, joining a corps of mission-driven staff committed to improving the health of the patients, families, and their communities.

Metropolitan has consistently been recognized for excellence in patient care, commitment to the highest standards of quality, and dedication to the communities it serves. Metropolitan was recently named “America’s most racially inclusive hospital,” and ranked #1 for economic inclusivity in a Lown Institute survey of 3,200 hospitals nationwide.

Metropolitan is part of NYC Health + Hospitals, the largest public health care system in the nation. Based in East Harlem, Metropolitan provides services to all New Yorkers without exception. The hospital welcomes patients from all five NYC boroughs and beyond, regardless of ability to pay, immigration status, or any other barriers to care. As a true safety net hospital, Metropolitan has created and nurtured deep ties to an extensive network of community-based organizations and local healthcare providers to meet the evolving needs of a diverse community.
