AND UNIVERSITY SYSTEM

FOUNDER'S
DINNER

BENEFITTING
STUDENT SCHOLARSHIPS

WEDNESDAY, SEPTEMBER 18, 2019

We Congratulate
ALL OF THE
2019 NEW YORK MEDICAL COLLEGE
FOUNDER'S DINNER HONOREES

As well as our founders,

LEONARD S. SCHLEIFER, M.D., PH.D.

and

GEORGE D. YANCOPOULOS, M.D., PH.D.,

for being presented with
New York Medical College Honorary Degrees.

*Your commitment to lead with science,
make life-changing medicines for people with serious diseases
and unwavering support to do well by doing good
inspires us every day.*

REGENERON
SCIENCE TO MEDICINE®

WELCOME

We are honored to welcome you to New York Medical College's (NYMC) 2019 Founder's Dinner. Thank you for your generous support of this evening and your dedication to NYMC. It is because of you that we can continue in our tradition to educate outstanding healthcare professionals.

This has been an exciting year for NYMC. We welcomed the incoming Class of 2023, celebrated the start of our Master of Science in Clinical Laboratory Sciences (CLS) Program, and began the expansion and improvement of BioInc@NYMC, the mid-Hudson Valley's only fully-equipped biotechnology incubator on a health sciences college campus, as well as the Center for Disaster Medicine, which has served as a training center for emergency medical responders for the past 13 years.

Tonight, we celebrate NYMC's rich history and promising future, honor distinguished leaders in our community who embody the College's mission, vision and values and, most importantly, raise critical funds to support student scholarships and other vital initiatives.

Spanning more than 30 years, we celebrate our friends, Drs. Schleifer and Yancopoulos and our relationship with Regeneron, a distinguished neighbor with whom NYMC has shared a uniquely collaborative relationship since its founding in 1988. Our close proximity and synergistic missions have resulted in numerous research collaborations. Regeneron has afforded NYMC students and faculty invaluable access to their real-world efforts in human genetics, animal model development and drug discovery and development. In turn, New York Medical College has afforded Regeneron access to its full breadth of resources including some of the brightest minds in academic biomedical sciences.

Regeneron and New York Medical College have both been leading forces in propelling the biotech industry forward locally, highlighted in our shared involvement in the Westchester Biotech Project and BioInc@NYMC.

It is our honor to celebrate this important relationship with Regeneron tonight and we would like to congratulate:

- Leonard S. Schleifer, M.D., Ph.D. – Honorary Doctor of Science Degree
- George D. Yancopoulos, M.D., Ph.D. – Honorary Doctor of Science Degree

Among our distinguished honorees this evening, we have a chancellor of a health system that oversees one of the largest medical schools in the country; a prominent public health leader who drew national recognition for her work on the diagnosis and public health intervention for the first case of intentional anthrax in the country; and a notable clinician and educator who has transformed the field of psychiatry with his innovative treatment approaches to schizophrenia. We applaud these individuals for their commitment to excellence.

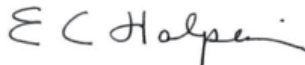

- Robert A. Barish, M.D. '79, M.B.A. – The William Cullen Bryant Award
- Jean Marie Malecki, M.D. '79, M.P.H., FACPM – The Alfred B. DelBello Distinguished Service Award
- Ira D. Glick, M.D. '61 – The Jackson E. Spears Community Service Award

Once again, thank you for your unwavering support of NYMC. Together, we can enjoy a new era of growth, diversity and opportunity.

Sincerely,

Alan Kadish, M.D.
President

Edward C. Halperin, M.D., M.A.
Chancellor and Chief Executive Officer

Great Things Are Happening at New York Medical College

BUILDING FOR THE FUTURE

- NYMC unveiled the state-of-the-art 21,000 square-foot Clinical Skills and Simulation Center, where students receive hands-on training in a replicated hospital setting with standardized patients and mannequins to hone clinical skills in a safe and controlled environment before treating actual patients.
- NYMC acquired 19 Skyline Drive, a 248,000-square-foot, five-story building providing essential space for offices and new programs.
- NYMC launched a transformative biotechnology incubator, BioInc@NYMC—the only incubator of its kind in the region located on a medical school campus.
- The Dr. Edward F. and Mrs. Anna M. Asprinio Fitness Center opened, offering a state-of-the-art wellness and workout facility for the NYMC community.
- The Touro College of Dental Medicine at New York Medical College (TouroCDM) opened in 2016 making it the first new dental school in New York State in nearly half a century.
- In 2018, TouroCDM opened a state-of-the-art 32,000-square-foot oral health care facility, Touro Dental Health.
- NYMC and Westchester Medical Center Health Network (WMCHealth) signed a 12-year Academic Affiliation Agreement to strengthen the academic medicine programs, clinical care and research practices of both NYMC and WMCHealth.
- A Center of Excellence in Precision and Responses to Bioterrorism and Disasters was created to provide expertise and leadership in preventing, diagnosing and treating public health threats specific to biological and chemical terrorism, and public health emergencies and developing medical countermeasures.

AWARDS AND ACCOLADES

- The Business Council of Westchester named NYMC Corporate Citizen of the Year in recognition of its significant contributions and commitment to the community.
- The Westchester County Association honored NYMC with the Leadership Award for offering innovative curricula and advanced technological developments in the community and contributing to Westchester's growing biotech industry.
- The Liaison Committee on Medical Education (LCME) awarded continued accreditation to the NYMC School of Medicine (SOM) for eight years, the maximum possible term.
- The Middle States Commission on Higher Education (MSCHE) reaffirmed full accreditation of NYMC, recognizing the College for its progress and commending the quality of its Periodic Review Report and internal review process.
- The Accreditation Council for Continuing Medical Education (ACCME) awarded the School of Medicine the coveted status of "Accreditation with Commendation" and extended its accreditation through 2020.
- NYMC received re-accreditation by the Accreditation Council for Graduate Medical Education (ACGME) for our residency and fellowship programs through 2025.

HONORARY DEGREE

LEONARD S. SCHLEIFER, M.D., PH.D.

President and Chief Executive Officer, Regeneron

Leonard S. Schleifer, M.D., Ph.D., founded Regeneron in 1988, and has served as president, and chief executive officer since its inception. Dr. Schleifer, together with Regeneron's president and chief scientific officer, George Yancopoulos, M.D., Ph.D., has built the company from a small startup into one of the world's leading biotechnology companies, with a unique science-driven culture.

Regeneron's ability to consistently translate science into medicine has led to seven

FDA-approved treatments and twenty product candidates, all of which were homegrown in its laboratories. Regeneron's medicines and pipeline are designed to help patients with eye disease, heart disease, allergic and inflammatory diseases, pain, cancer, infectious diseases and rare diseases

The company is accelerating and improving the traditional drug development process through its proprietary technologies to yield optimized, fully-human antibodies, and ambitious initiatives such as the Regeneron Genetics Center, one of the largest genetics sequencing efforts in the world

Dr. Schleifer has been recognized as one of Barron's Best CEOs, a Yale School of Management Legend in Leadership and as Ernst & Young's Life Sciences Entrepreneur of the Year. Under his leadership, Regeneron has been repeatedly voted the number one company to work for in the biopharmaceutical industry by Science magazine and has been consistently ranked a top ten most innovative company by *Forbes*.

Dr. Schleifer graduated Phi Beta Kappa and summa cum laude from Cornell University and earned his M.D. and Ph.D. in pharmacology from the University of Virginia. He is a licensed physician, certified in neurology by the American Board of Psychiatry and Neurology.

HONORARY DEGREE

GEORGE D. YANCOPOULOS, M.D., PH.D.

President and Chief Scientific Officer, Regeneron

George D. Yancopoulos, M.D., Ph.D., co-founder, president and chief scientific officer of Regeneron, has worked to build Regeneron into a leader in science-driven biotechnology. Under Dr. Yancopoulos' direction, Regeneron's accomplishments include the invention and development of seven FDA-approved medicines for cancer, vision-threatening eye diseases, heart disease, atopic dermatitis, asthma and rheumatoid arthritis.

Dr. Yancopoulos, along with his team, co-invented Regeneron's foundational technologies for target and drug discovery. He continues to be a force in biotech innovation and led the creation of the Regeneron Genetics Center which has sequenced the exomes of more than 700,000 people. Regeneron routinely appears on *Forbes* list of the Most Innovative Companies in the World.

Dr. Yancopoulos graduated valedictorian from the Bronx High School of Science (where he was a Westinghouse Science Talent Search winner) and Columbia University where he received his M.D. and Ph.D. in biochemistry and molecular biophysics. He was the first graduate student of the renowned molecular immunologist, Fred Alt, Ph.D. He was pursuing a career in academia when he met and joined his Regeneron co-founder Leonard S. Schleifer, M.D., Ph.D.

Dr. Yancopoulos has authored more than 300 papers, holds more than 100 patents and was among the ten most highly cited scientific authors in the world during the 1990s. He was elected to the National Academy of Sciences in 2004, was inducted into the Biotech Hall of Fame in 2014 and was named Ernst & Young's Entrepreneur of the Year in 2016, along with Dr. Schleifer. He is passionate about inspiring young talent to pursue scientific careers through numerous STEM and internship programs. Under his leadership, Regeneron has taken on sponsorship of the nation's oldest and most prestigious high school science competition, formerly sponsored by Westinghouse and Intel, and now known as the Regeneron Science Talent Search.

THE WILLIAM CULLEN BRYANT AWARD

New York Medical College established the William Cullen Bryant Award in 1983 to recognize those remarkable individuals who, in the tradition of the College's founder, William Cullen Bryant, demonstrate seminal leadership in health care, science, education, business or the arts.

Bryant, the son of a physician, was an editor, philosopher, poet, lawyer, and dynamic civic leader who substantively influenced the issues of his day through the power of his pen. During the second half of the 19th century, he led a select group of influential individuals in creating New York Medical College, which today has become one of the nation's largest private health sciences colleges. Bryant subsequently served as president of the College's Board of Trustees for more than a decade and was the medical school's first president. The qualities of distinguished and broad leadership that Bryant demonstrated have been characteristic of all William Cullen Bryant medal awardees.

ROBERT A. BARISH, M.D. '79, M.B.A.

Dr. Robert A. Barish, a distinguished physician and academic leader, is vice chancellor for health affairs of the University of Illinois at Chicago.

He oversees the University of Illinois Hospital & Health Sciences System (UI Health), which provides comprehensive care, education and research to train healthcare leaders and foster healthy communities in Illinois and beyond. A part of the University of Illinois at Chicago (UIC), UI Health comprises a clinical enterprise that includes a 465-bed tertiary care hospital, 21 outpatient clinics, and 11 Mile Square Health Center facilities, which are Federally Qualified Health Centers. With campuses in

Chicago, Peoria, Quad Cities, Rockford, Springfield, and Urbana, the health system includes the academic and research activities of the seven UIC health sciences colleges: Applied Health Sciences, Dentistry, Medicine, Nursing, Pharmacy, the School of Public Health, and the Jane Addams College of Social Work.

Previously, Dr. Barish served as chancellor of the LSU Health Sciences Center at Shreveport from 2009 to 2015, where he provided leadership for the schools of medicine, allied health, and graduate programs, a major academic medical center and two affiliated hospitals.

Dr. Barish spent 24 years at the University of Maryland School of Medicine. He served as chief of emergency medicine from 1985 to 1996 and built a nationally recognized program. There he was named associate dean for clinical affairs in 1998 and eventually became vice dean for clinical affairs in 2005.

That same year, following the devastation of Hurricane Katrina on the Gulf Coast, Dr. Barish helped lead a medical regiment dispatched by the state of Maryland to deliver emergency care to more than 6,000 hurricane victims in Jefferson Parish, Louisiana.

In addition to his medical duties at Maryland, Dr. Barish earned an M.B.A. from Loyola College in 1995. From 1996 to 1998, he served as the chief executive officer of UniversityCARE, a University of Maryland physician-hospital network of family-oriented health centers located in neighborhoods throughout the Baltimore metropolitan area.

A former lieutenant colonel and flight surgeon in the Maryland Air National Guard, Dr. Barish was among a select group invited to become a NASA astronaut candidate in the early 1990s.

After earning his medical degree from New York Medical College in 1979, Dr. Barish interrupted his residency training for one year to provide medical treatment to refugees at camps along the Thai-Cambodian border and in Somalia. He completed an internal medicine residency at New York's Saint Vincent's Hospital and Medical Center in 1983 and an emergency medicine residency at Georgetown University Medical Center in 1985. He is a member of Alpha Omega Alpha Medical Honor Society, a fellow of the American College of Emergency Physicians and the American Academy of Emergency Medicine, and is on the Board of Directors for the Association of Academic Health Centers.

THE ALFRED B. DELBELLO

DISTINGUISHED SERVICE AWARD

New York Medical College proudly bestows the Alfred B. DelBello Distinguished Service Award upon those members of its faculty, staff, administration and volunteer leadership who have helped advance the College's mission of education and research through their service, commitment, and expert ability. The newly-renamed award honors the late Alfred B. DelBello whose life as a public servant epitomizes the qualities which NYMC honors with this award. The Alfred B. DelBello Distinguished Service Award honors individuals whose careers and contributions to health care, science, and our communities have profoundly impacted the practice of medicine and have added immeasurable prestige to the College.

JEAN MARIE MALECKI, M.D. '79, M.P.H., FACPM

Dr. Jean M. Malecki began her work as director of the Palm Beach County Health Department with a vision of making Palm Beach County the healthiest community in the nation, and over the course of her 19 year career, went on to initiate a local public health system dedicated to serving the entire community by utilizing partnerships from every entity.

A South Florida native, Dr. Malecki's training began at Fairfield University in Connecticut where she obtained a Bachelor of Science Degree with pre-medical honors, and a medical degree from New York Medical College where she graduated with honors including membership in the Alpha Omega Alpha Honor Society, Cor Et Manus Service Society and American Women's Citation for Scholastic Achievement in Medicine. She earned a Master of Public Health Degree

from the University of Miami. Dr. Malecki is board certified in general preventive medicine and public health, and is a fellow of the American Board of Preventive Medicine and Public Health, and an alumnus of the Public Health Leadership Institute.

In 1982, when HIV/AIDS was an emerging disease in Palm Beach County, Dr. Malecki diagnosed one of the first children with AIDS and helped form the Comprehensive AIDS Program, a 501c3, initially started with one of the first Robert Wood Johnson Grants Foundation for this disease. This program now serves more than 7,000 people living with HIV/AIDS in the County.

In the mid-1990s, Dr. Malecki formed the Maternal Child Health Alliance and became its first president. Soon after, she helped create the Healthy Start, an off-shoot of the Maternal Child Health Alliance, which provides in-home counseling to pregnant women and follow-up care for mother and baby. Today, Palm Beach County maintains one of the lowest infant mortality rates in the United States.

In 2001, Dr. Malecki received international attention for her assistance in the diagnosis and public health intervention of the first case of intentional Anthrax, successfully leading the investigation for the state of Florida.

In 2002, when citizens of Palm Beach County voted to create the Health Care District of Palm Beach County to guarantee funding for health care and trauma services, Dr. Malecki served on the Board of Directors and helped initiate the Palm Beach County-Wide Trauma System. In addition, with funding through the District's insurance programs, Dr. Malecki expanded the primary care clinics within the Health Department—adding four new clinic buildings, an administrative complex, a hospital and county nursing home.

Many of the programs instituted under Dr. Malecki's leadership have become models for local public health systems throughout the nation, including: the Hospital Emergency Response Coalition, formed to unify the private hospitals in the event of a disaster; Protocol for Assessing Community Excellence in Environmental Health, to provide environmental support to communities in need of better water, air and land systems; and Community Health Division to forge public/private partnerships. Much of this has been accomplished through Dr. Malecki's foresight in making the Palm Beach County Health Department an Academic Health Department that is constantly learning, teaching, and creating innovative ways to better serve the public's health.

Dr. Malecki has been identified as "Changing the Face of Medicine" and a Local Legend by the National Library of Medicine. She has been named one of the top 25 Faces of Public Health by the American Public Health Association and a Woman of Distinction by the Women's Chamber of Commerce. She is a recipient of a Presidential Citation for her leadership in curtailing the risk from bioterrorism.

THE JACKSON E. SPEARS COMMUNITY SERVICE AWARD

The Jackson E. Spears Community Service Award is bestowed upon those individuals and organizations that have demonstrated exceptional service and commitment to our communities. It was created in 2000 to honor Jackson E. Spears, who served as a member of New York Medical College's Board of Trustees for 60 years, from 1943 to 2003. Loyal, steadfast, sharp-witted, selfless, practical, wise and relentless in his promotion of the College and its mission, Mr. Spears was a member of virtually every Board committee during his tenure, frequently serving as chairman. He served as vice chairman of the Board from 1956 to 1964 and chairman from 1965 to 1972, and he was appointed acting president of the College twice. He also provided pivotal leadership in the decision to relocate the College from New York City to Valhalla in the early 1970s.

A native of Dallas, Texas, Mr. Spears was a corporate executive in the textile industry until his retirement from Burlington Industries as a vice president in 1961. Throughout his career, he was also active in civic and community service. New York Medical College awarded Mr. Spears the first William Cullen Bryant medal and the Distinguished Service Award as well as honorary Doctor of Humane Letters and Doctor of Science degrees. The College continues to honor this valuable member of our community who passed away in 2003.

IRA D. GLICK, M.D. '61

Dr. Ira D. Glick joined the faculty of the Stanford University School of Medicine in July, 1993. Prior to that, he served as professor of psychiatry at the University of California, San Francisco (UCSF) from 1968 to 1978 and at the Cornell University Medical College from 1978 to 1993. During his tenure at Cornell, he was also senior science advisor to the director of the National Institutes of Mental Health. Dr. Glick's research has focused on the effectiveness of psychiatric hospitalization, the current and future treatment of schizophrenia and mood disorders including combining medication and psychotherapy (both individual as well as family therapy) and the diagnosis and treatment of athletes.

A 1961 graduate of New York Medical College, Dr. Glick is a Distinguished Fellow of the American Psychiatric Association, a founding member of the American Family Therapy Academy, the International Society of Sports Psychiatry (ISSP) and founding and long-time member of the Board of Directors of the American Society of Clinical Psychopharmacology (ASCP). Dr. Glick has been elected to membership of the American College of Neuropsychopharmacology (ACNP) and the American College of Psychiatrists.

He has authored or co-authored more than 200 articles published in the scientific literature and wrote or edited ten books on mental/psychiatric illness, psychopharmacology, family therapy, and recently sports psychiatry. He is a long-time editor of the American Society Clinical Psychopharmacology Model Psychopharmacology Curriculums with separate publications for teachers of psychiatric residents and another for both medical students and primary care clinician.

Dr. Glick has received numerous national and international awards for his research and teaching including those from the American Psychiatric Association, American College of Neuropsychopharmacology (ACNP) and the Association of Academic Psychiatry. He received the 2014 Kum Po Soo Award from the American Psychiatric Association, as well as an "exemplary psychiatrist" award from the National Alliance for Mental Illness (NAMI). In 2017, he received the Dean Award from the American College of Psychiatrists for his research in Schizophrenia. In 2019 he received the Payne Whitney Clinic Award for Extraordinary Public Service for a distinguished researcher, clinician, and educator, "who has transformed the field with his innovative treatment approaches to schizophrenia and his dedication to the dissemination of knowledge."

Dr. Glick was appointed emeritus professor at Stanford in 2010. He serves as visiting professor at three medical schools – Weill Cornell Medical College, New York University and University California San Diego – and has recently rejoined the adjunct faculty at University California San Francisco.

In 2018, he served on the International Olympic Consensus Committee focusing on "Mental Health in Elite Athletes." He was also a commentator in the 20-hour, 2018 ESPN documentary, "Basketball: A Love Story."

SPECIAL CONGRATULATIONS TO OUR DISTINGUISHED ALUMNI AWARD HONOREE

ANTON BENNETT, PH.D. '93

Dr. Bennett is the Dorys McConnell Duberg Professor of Pharmacology and Professor of Comparative Medicine at the Yale School of Medicine. He also serves as co-director of the Integrative Cell Signaling and Neurobiology of Metabolism Program at Yale and is Director of Minority Affairs for the Yale Graduate Program in the Biological and Biomedical Sciences.

Dr. Bennett's research focuses on exploring how protein tyrosine phosphatases (PTPs) participate in the pathogenesis of diseases such as obesity and diabetes, cardiovascular disease and developmental abnormalities. Using an integrated approach (that

encompasses cell biology, genetics, protein biochemistry, cell imaging and animal models), Dr. Bennett's long-term research goal is to uncover the function of PTPs in order to identify whether these enzymes might serve as novel therapeutic targets for the treatment of human diseases.

Dr. Bennett received his B.Sc. in Biochemistry from Liverpool John Moores University and his Ph.D. from New York Medical College in Pathology. He did his post-doctoral training at Cold Spring Harbor Laboratories and Harvard Medical School. He is the recipient of the Pharmaceuticals Manufacturers Association Young Investigators Award (2000), and the Burroughs Wellcome Award for New Investigators in Pharmacology (2001). He was awarded the Blavatnik Fund Yale Innovation Award in 2017.

STATE OF NEW YORK
EXECUTIVE CHAMBER
ALBANY 12224

ANDREW M. CUOMO
GOVERNOR

September 18, 2019

Dear Friends:

It is a pleasure to send greetings to everyone gathered for the annual Founder's Dinner hosted by New York Medical College (NYMC).

Established in 1860, New York Medical College is among the oldest health sciences colleges in the United States dedicated to the education of physicians, scientists, and greater community of healthcare professionals. This highly regarded institution offers programs of graduate and post-doctoral medical study, along with training in various disciplines, at its three schools focused on areas of specialized care – from cancer treatment to disaster medicine.

As a biomedical research institution, NYMC is a renowned resource of study for improved methods of prevention and treatment for many illnesses and diseases, and the discovery of potential cures. Through its associations with other healthcare institutions, NYMC upholds a humanistic philosophy of medical practice that emphasizes sensitivity and respect for all people within our diverse world.

This evening, you honor several distinguished individuals whose contributions in medicine and healthcare have merited special recognition of their leadership and achievements, and I join to congratulate them. The entire College community can be proud of the longstanding tradition of excellence in education and medical care envisioned by its founders, as you look forward to furthering the progress of healthcare for years to come.

Warmest regards and best wishes for a memorable celebration.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Andrew Cuomo', written over a light blue horizontal line.

ANDREW M. CUOMO

George Latimer
County Executive

September 18, 2019

Dear Friends,

It is my great pleasure to send greetings to New York Medical College and its supporters on the occasion of the annual Founder's Dinner. Since 1860, New York Medical College has proudly carried out a legacy of inclusion, with a humanistic approach through which students learn to provide emotional as well as physical care. It comes as no surprise that the individuals being honored tonight embody the same values.

Congratulations to the 2019 Honorees:

Leonard S. Schleifer, M.D., Ph.D.
Honorary Degree

George D. Yancopoulos, M.D., Ph.D.
Honorary Degree

Robert A. Barish, M.D. '79, M.B.A.
William Cullen Bryant Award

Jean Marie Malecki, M.D. '79, M.P.H., FACPM
Alfred B. DelBello Distinguished Service Award

Ira D. Glick, M.D. '61
Jackson E. Spears Community Service Award

I am proud to join New York Medical College in honoring these exceptional medical professionals who have performed outstanding services to their communities.

Best wishes to everyone for a successful dinner.

Sincerely,

George Latimer

School of Health Sciences and Practice
40 Sunshine Cottage Rd
Room 325
Valhalla, NY 10595

Dear Friends:

I am delighted to offer a warm welcome to all who have gathered for New York Medical Colleges Founder's Dinner. Your participation in this event supports NYMC's ongoing mission to produce truly exceptional physicians, scientists, and other healthcare professionals, as well as to conduct cutting-edge biomedical research.

Founded in 1860, NYMC has a well-established reputation for excellence and has been responsible for creating generations of medical professionals. The College's longevity is a testament to its dedicated leaders, talented teachers, and hardworking students. Today, the College boasts a diverse student body and faculty. As our nation's first medical school to establish a minority scholarship program and one of the first to admit women, I commend NYMC for carrying on its tradition of diversity and inclusion. After nearly 160 years, the College is still going strong and I wish it much continued success.

I would also like to take this opportunity to join you in recognizing tonight's honorees: Leonard S. Schleifer, M.D., Ph.D., and George D. Yancopoulos, M.D., Ph.D., recipients of Honorary Degrees; Robert A. Barish, M.D. '79, M.B.A., recipient of The William Cullen Bryant Award; Jean Marie Malecki, M.D. '79, M.P.H., FACPM, recipient of The Alfred B. DelBello Distinguished Service Award; and Ira D. Glick, M.D. '61, recipient of The Jackson E. Spears Community Service Award. All of this year's honorees can certainly take great pride in being recognized by this distinguished organization.

Again, best wishes to everyone involved in today's event. I am sure that it will be a most enjoyable and memorable occasion. I wish the New York Medical College much continued success with its important mission.

Warmest regards.

Sincerely,

A handwritten signature in dark ink that reads "Letitia James". The signature is fluid and cursive, with the first name "Letitia" and the last name "James" clearly distinguishable.

CHARLES E. SCHUMER
NEW YORK

Democratic Leader

United States Senate

WASHINGTON, DC 20510-3203

September 18, 2019

Dear Friends:

Please accept my warmest greetings as you gather with New York Medical College (NYMC) to celebrate its annual Founder's Dinner. It is a pleasure to be able to celebrate the incredible work of the college, its staff, leadership, students and this evening's honorees.

New York Medical College, one of the oldest and largest health sciences colleges in the nation, is distinguished by its inclusive approach to education, having been at the forefront of the admission and graduation of women and students of color. The administrators and faculty work tirelessly to ensure that its students gain the knowledge, skills, and confidence to make a positive difference in the world.

NYMC has demonstrated a strong record of providing enumerable learning experiences and tangible work opportunities for the students in each of its three schools: the School of Medicine, the Graduate School of Basic Medical Sciences, and the School of Health Sciences and Practice. New York Medical College has perfectly combined the tenets of academic excellence and leadership to bring out the highest potential in its students. I applaud NYMC for its devotion to the educational needs of our community and its talented students.

At this time, I would like to express my congratulations to tonight's honorees: recipient of the Alfred B. DelBello Distinguished Service Award, **Jean Marie Malecki, M.D. '79, M.P.H., FACPM**, recipient of the William Cullen Bryant Award, **Robert A. Barish, M.D. '79, M.B.A.**, recipient of the Jackson E. Spears Community Service Award, **Ira D. Glick, M.D. '61**, and recipients of Honorary Degrees, **Leonard S. Schleifer, M.D., Ph.D.**, and **George D. Yancopoulos, M.D., Ph.D.** It is an honor to join everyone gathered here tonight in recognition of these truly outstanding individuals.

On behalf of all New Yorkers, thank you for your commitment and dedication. I know that New York Medical College will continue to do invaluable work within the community for many years to come. Best wishes for a wonderful event.

Sincerely,

Charles E. Schumer
United States Senator

KIRSTEN GILLIBRAND

Dear Friends,

It is a privilege to send greetings to everyone attending New York Medical College's Annual Founder's Dinner. I send my congratulations to all of tonight's honorees.

Founded in 1860, New York Medical College is one of the oldest and largest health sciences colleges in the United States. The School of Medicine, Graduate School of Basic Medical Sciences, School of Health Sciences and Practice, Touro College of Dental Medicine, and Touro College School of Health Sciences' nursing program provide both essential academic training and hands-on experience. Their dedication to education and health services stands as an example of the commitment to our future that we hope to inspire across the State of New York.

Please accept my well wishes for a magnificent event and many more years of continued success.

Sincerely,

A handwritten signature in cursive script that reads "Kirsten Gillibrand".

Dear Friends:

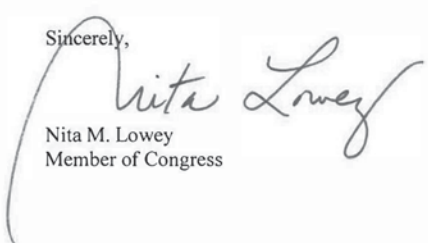

I am pleased to have this opportunity to send greetings to everyone gathered for the New York Medical College 2019 Founders Dinner. Please accept my best wishes for a successful and memorable evening.

In particular, I want to congratulate this year's distinguished honorees; **Jean Marie Malecki, M.D. '79, M.P.H., FACPM**, *Alfred B. DelBello Distinguished Service Award* recipient; **Robert A. Barish, M.D. '79, M.B.A.**, *William Cullen Bryant Award* recipient, and **Ira D. Glick, M.D. '61**, *Jackson E. Spears Community Service Award* recipient.

Over the last 159 years, New York Medical College has upheld its dedication to inclusivity and diversity, having educated the nation's first women physicians and its first physicians of color. In keeping with its commitment to serve the community, NYMC has achieved many impressive milestones this year; including the expansion of the biotechnology incubator, increased operations within the Center for Disaster Medicine and reaching full enrollment at the Touro College of Dental Medicine.

Congratulations and best wishes for what I know will be continued success for years to come.

Sincerely,

Nita M. Lowey

ANDREA STEWART-COUSINS

NEW YORK STATE SENATE, 35TH DISTRICT

PRESIDENT PRO TEM ♦ MAJORITY LEADER

September 18, 2019

Dear Friends,

It is my pleasure to welcome you to the **2019 New York Medical College Founder's Dinner**. Today celebrates 159 years of academic progress and achievements in the medical and health science field, and I am honored to take part in this special occasion.

Since 1860, New York Medical College has provided exemplary education and clinical training that has helped many students embark on rewarding careers as physicians, scientists and other health care professionals serving our community today. Through its continued efforts in offering innovative curricula, expanding programs, securing research grants, and improving facilities and technology, New York Medical College has contributed to the growth of Westchester's biotech industry, ultimately helping save the lives of others.

I join you in recognizing this evening's honorees who have made significant contributions in the medical and health science field: Leonard S. Schleifer, M.D., Ph.D., recipient of an *Honorary Degree*; George D. Yancopoulos, M.D., Ph.D., recipient of an *Honorary Degree*; **Jean Marie Malecki, M.D. '79, M.P.H., FACP**, recipient of the *Alfred B. DelBello Distinguished Service Award*; **Robert A. Barish, M.D. '79, M.B.A.**, recipient of the *William Cullen Bryant Award*; and **Ira D. Glick, M.D. '61**, recipient of the *Jackson E. Spears Community Service Award*. Thank you all for your dedication and hard work.

Your presence here this evening demonstrates your commitment to our community, and I thank you for your interest in this very important educational institution. *New York Medical College* is well-served by your involvement, and I thank you for helping make a difference in the community

Best Wishes,

Andrea Stewart-Cousins

Dear Friends,

I would like to congratulate the New York Medical College, its superb leadership, faculty and students, on the occasion of your annual Founder's Dinner.

We are so lucky to have a world class medical, dental and research facility in the heart of the Hudson Valley. I am fortunate to have had the opportunity to visit your campus, meet faculty and students, and to see first-hand the important work that you do and the corresponding economic activity throughout the region.

I am proud that this year we were able to partner to increase New York State funding for the college's Center for Disaster Medicine, which was awarded \$925,000 from the state. This funding will help you continue your critical work in teaching disaster preparedness and operational and tactical medicine throughout the region in order to protect New Yorkers from the threat of mass casualty incidents, catastrophic bioterrorism and natural disasters.

I would also like to congratulate this evening's honorees: Leonard S. Schleifer, M.D, Ph.D., George D. Yancopoulos, M.D., Ph.D., Robert A. Barish, M.D. '79, M.B.A., Jean Marie Malecki, M.D. '79, M.P.H., FACPM, and Ira D. Glick, M.D. '61.

My best wishes for another successful and productive year for New York Medical College.

Sincerely,

A handwritten signature in cursive script, reading "Pete B. Harckham".

September 2019

Dear Friends:

Congratulations to the New York Medical College (NYMC), the Board, employees, and volunteers on your annual Founder's Dinner celebrating 159 years of providing exceptional education and training to doctors and health care professionals. I offer my special congratulations to your honorees, Leonard S. Schleifer, M.D., Ph.D., George D. Yancopoulos, M.D., Ph.D., Robert A. Barish, M.D. '79, M.B.A., Jean Marie Malecki, M.D. '79, M.P.H., FACP, and Ira D. Glick, M.D. '61.

NYMC was founded in 1860, and is now one of the oldest and largest health sciences colleges in the country, with more than 1,500 students, 330 residents and clinical fellows, over 2,600 faculty members, and 23,200 living alumni. Committed to inclusion, the humanistic approach is a unique component of the academic experiences provided by each of the three schools: the School of Medicine, the Graduate School of Basic Medical Sciences, and the School of Health Sciences and Practice.

I offer special congratulations to the recipients of Honorary Degrees, Leonard S. Schleifer, M.D., Ph.D. and George D. Yancopoulos, M.D., Ph.D. Together they have grown Regeneron from a small a tremendously successful company with a unique science-driven culture and record of successful drug discovery and development. I also congratulate Robert A. Barish, M.D. '79, M.B.A., on receiving the William Cullen Bryant Award. He a distinguished physician and academic leader who serves as vice chancellor for health affairs with the University of Illinois at Chicago. Dr. Barish has spent his career serving his country and each community in which he has lived. As the recipient of the Alfred B. DeBello Service Award, Jean Marie Malecki, M.D. '79, M.P.H., FACP has transformed the face and mission of public health. She has initiated a local public health system dedicated to serving the entire community of Palm Beach County Florida, and has been at the forefront of multiple public health crises. Finally, I congratulate Ira D. Glick, M.D. '61, recipient of the Jackson Spears Community Service Award. After years of service, he is now visiting professor at three medical schools—Weill Cornell Medical College, New York University and University of California San Diego—and has recently rejoined the Adjunct faculty at University of California San Francisco. He is recognized for having transformed the field with his innovative treatment approaches to schizophrenia and his dedication to the dissemination of knowledge.

Congratulations again to New York Medical College and all of the honorees on this special celebration of your work and community contributions.

A handwritten signature in cursive script that reads "Shelley B. Mayer".

Dr. Mark Hasten, Chairman of the Board
New York Medical College
40 Sunshine Cottage Road
Valhalla, New York 10595

September 18, 2019

I am pleased to offer my congratulations on the occasion of New York Medical College's Founder's Dinner, celebrating 159 years in our community.

Since its founding in 1860, New York Medical College has educated thousands of medical professionals and scientists, providing exemplary service to the people of Westchester County and beyond. New York Medical College's national and local recognition continues to make us proud.

This year, the Touro College of Dental Medicine at New York Medical College welcomed its fourth class of students, and is now a fully-enrolled dental school. Additionally, I am pleased that this year New York State has again increased funding to NYMC, and has provided \$925,000 for college's Center for Disaster Medicine, the only such facility in the Hudson Valley. BioInc, the biotechnology incubator is 95% occupied, and soon to be complete renovations will be able to accommodate between 10-20 new startup companies.

I would also like to offer my congratulations to this year's stellar honorees, Leonard S. Schleifer, M.D., Ph.D., George D. Yancopoulos, M.D., Ph.D., Robert A. Barish, M.D. '79, M.B.A., Jean Marie Malecki, M.D. '79, M.P.H., FACPM, and Ira D. Glick, M.D. '61.

Please accept my best wishes for a joyous evening with much to celebrate.

Sincerely,

A handwritten signature in cursive script, reading 'Thomas J. Abinanti'.

Dear Friends,

I'd like to congratulate New York Medical College on your annual Founder's Dinner, as we celebrate one of the oldest and largest health colleges in the United States. Since its inception in 1860, New York Medical College has grown to include three medical schools: namely the School of Medicine; Graduate School of Basic Medical Sciences; and the School of Health Sciences and Practice. Additionally, the Medical College's Biotechnology Incubator is celebrating its five-year anniversary and its expansion is expected to support another 10-20 startup companies.

I commend New York Medical College and its honorees: Leonard S. Schleifer, M.D., Ph.D.; George D. Yancopoulos, M.D., Ph.D.; Robert A. Barish, M.D. '79, M.B.A.; Jean Marie Malecki, M.D. '79, M.P.H., FACPM; and Ira D. Glick, M.D. '61. It is always a pleasure to work with the Medical College, a great partner in the community.

Sincerely yours,

David Buchwald

Congratulations on celebrating 159 years of excellence and all of your accomplishments in 2019. As a leader in the medical field and one of the largest medical colleges in the United States, I'm truly amazed with New York Medical College's dedication to providing students with high quality hands-on experiences, while continuing to serve the broader community.

I am very proud of the incredible work that the Center of Excellence in Precision Medicine and Responses to Bioterrorism and Disaster continues to do. With an increase in state funding, the college's Center for Disaster Medicine will continue its crucial work that protects New Yorkers from the threat of mass casualty incidents, catastrophic bioterrorism, and man-made disasters.

BioInc continues its extraordinary progress as it nears its 5-year anniversary. It now houses nine startups that are developing cancer therapeutics, medical devices, nutraceuticals and a digital health platform. They led by the tireless work from director Deborah Novick. Furthermore, I look forward to the renovations being done on-campus that will provide an additional 9,500 square feet, and will allow BioInc to support another 10-20 startups to further their research in medicine and provide the current and future students with state of the art facilities.

The Touro College of Dental Medicine at NYMC has also continued to flourish. More than 100 new students are transitioning to provide patient care at the facility. Standing as one of the nation's newest dental schools, TCDM has shown itself a leader in dental education and a great resource for oral health around the Hudson Valley.

I would also like to express further congratulations to all this year's honorees for their tremendous contributions to New York Medical College and our state.

My best wishes for the continued success of New York Medical College.

Sincerely,

The New York Medical College,

I send my greetings to everyone attending the 2019 Founder's Dinner at the Surf Club on the Sound in New Rochelle. The work you do to improve the health, safety, and future well-being of our children deserves the gratitude and admiration of the whole community. The Milestones made by the Touro College of Dental Medicine, being able to provide a wide range of oral health services to the public and becoming a fully enrolled dental school, are very worthy of celebration. Being New York's newest dental school means it is the first new Dental School in the state in over fifty years becoming the leader in oral health in the Hudson Valley. Since 1860, NYMC has built a proud legacy of diversity, humanistic values, and meaningful hands-on experiences that has provided a wealth of opportunities for medical students, residents, and other health providers.

I would like to bestow my congratulations on the exceptional individuals being honored this year- Leonard S. Schleifer, M.D., Ph.D., George D. Yancopoulos, M.D., Ph.D., Robert A. Barish, M.D. '79, M.B.A., Jean Marie Malecki, M.D. '79, M.P.H., FACPM, and Ira D. Glick, M.D. '61. The combined effort put forth by this group has been, and will remain to be, vital to our growth as a community. Each of these individuals share qualities of leadership, experience, diligence, and excellence which makes them all great role models for not only the current students at NYMC but all Americans.

Sincerely,

Sandy Galef

September 18, 2019

Dear Friends,

Congratulations to New York Medical College (NYMC) on its 2019 Annual Founder's Dinner. I welcome all of the individuals who have gathered here this evening to celebrate the great work and mission of NYMC.

I join you in paying tribute on this happy occasion to the distinguished honorees – Leonard S. Schleifer, M.D., Ph.D., George D. Yancopoulos, M.D., Ph.D., Robert A. Barish, M.D. '79, M.B.A., Jean Marie Malecki, M.D. '79, M.P.H., FACPM, and Ira D. Glick, M.D. '61. I am proud to honor their exceptional talents and long-standing commitment and dedication to providing access to high-quality health care in our local communities.

NYMC has much to celebrate this year with its biotechnology incubator, BioInc, which has helped launch nine startups that are working to develop innovative cancer treatments, medical devices and digital health platforms. The Center for Disaster Medicine continues its critical work in disaster preparedness and Touro College of Dental Medicine has now welcomed its fourth class of dental students, becoming the first new school of dental medicine in New York State in almost 50 years.

My best wishes to all those present on this important occasion and my sincere thanks to all who have worked tirelessly to make this evening possible.

Warm regards,

Steve Otis
State Assemblyman

Benjamin Boykin II

Chairman of the Board

Legislator, 5th District

September 18, 2019

Dear Members and Supporters of New York Medical College,

On behalf of the entire Westchester County Board of Legislators, congratulations on your annual fundraising event, the Founder's Dinner.

New York Medical College is rooted in a proud legacy of inclusion and focuses on a humanistic approach as a fundamental component of the exceptional academics and meaningful hands-on experiences provided by each of the College's three schools: the School of Medicine, the Graduate School of Basic Medical Sciences, and the School of Health Sciences and Practice.

Of special note this year, as the 5 year anniversary of **BioInc** (NYMC's biotechnology incubator) approaches, their existing space is 95% occupied by 9 startups and its anchor client, IntelliSpace Genomics, a division of Philips. The space is being expanded and will support an additional 10 to 20 startups.

The college's **Center for Disaster Medicine** was awarded an increase in New York State funding and is now receiving \$925K from the state to continue its critical work in disaster preparedness, operational and tactical medicine throughout Westchester and New York State.

This past year marked several major milestones for **Touro College of Dental Medicine** at New York Medical College (TCDM). More than 100 new students transitioned to providing patient care in TCDM's state-of-the-art dental training facility, providing a full range of oral health services to the public. The college also welcomed its fourth class of dental students, official becoming a fully-enrolled dental school.

We join you in celebrating this year's honorees:

- Robert A. Barish, M.D. '79, M.B.A.
Receiving The William Cullen Bryant Award
- Jean Marie Malecki, M.D. '79, M.P.H., FACPM
Receiving The Alfred B. DelBello Distinguished Service Award
- Ira D. Glick, M.D. '61
- Receiving The Jackson E. Spears Community Service Award

Additionally, congratulations to those receiving Honorary Degrees:

- Leonard S. Schleifer, M.D., Ph.D., President and Chief Executive Officer, Regeneron
- George D. Yancopoulos, M.D., Ph.D., President and Chief Scientific Officer, Regeneron

We thank these honorees and the New York Medical College for their outstanding contributions and wish them continued success in working to serve our residents.

Sincerely,

Ben Boykin

September 18, 2019

Dear Friends:

I wish to congratulate New York Medical College for all of its accomplishments and achievements. It is an honor to represent New York Medical College and it is an honor to be part of their evolving foundation in the community. This year will mark 159 years of providing exemplary education to physicians, scientists and public health professionals. Founded in 1860, New York Medical College (NYMC) is one of the oldest and largest health sciences colleges in the United States.

The College, which joined the Touro College and University System in 2011, is located in Westchester County's District 3 in Valhalla, New York, each one of the three schools: the School of Medicine, the Graduate School of Basic Medical Sciences, and the School of Health Sciences and Practice are rooted in exceptional academics and hands-on experiences. The College has also welcomed more than 100 new dental students to its campus, at the Touro College of Dental Medicine at New York Medical College.

With a network of affiliated hospitals that includes large urban medical centers, small suburban clinics and high-tech regional tertiary care facilities; NYMC provides a wide variety of clinical training opportunities throughout the New York-New Jersey-Connecticut region for medical students, residents and other health providers.

I would like to congratulate this evening's esteemed honorees; **Jean Marie Malecki, M.D. '79, M.P.H., FACPM**, *Alfred B. DeBello Distinguished Service Award* recipient; **Robert A. Barish, M.D. '79, M.B.A.**, *William Cullen Bryant Award* recipient **Ira D. Glick, M.D. '61**, *Jackson E. Spears Community Service Award* recipient.

Please keep up the great work! I look forward to seeing what the future brings to New York Medical College.

Sincerely,

Margaret A. Cunzio

The Legacy Society of New York Medical College

The **Legacy Society of New York Medical College** recognizes the valuable contributions of alumni, faculty, staff and friends who have made provisions for the College in their wills or through another type of planned gift. More importantly, they become part of a distinguished community of benefactors, whose legacies have helped perpetuate and support the important mission of the College.

It is easier than ever to give back through one or more of the various planned giving options available. In addition to personal satisfaction, donors are often rewarded with financial planning benefits. With careful planning, donors find they are able to:

- help future students and leave a lasting legacy
- make a personal statement
- save taxes (and as a result, consider a larger gift than would otherwise be possible)

For more information on the **Legacy Society of New York Medical College** and the various planned giving options available, please contact:

Jerry Volk
Director of Philanthropic Initiatives
